Islamabad, Pakistan · +923002680439

moen.eqbal@gmail.com · <https://www.linkedin.com/in/ixmmoinuddin> · <http://mmoinuddin.com>

I am a problem-solver front-end developer and creative thinker that think not only about how precise is the quality of the code, but also about how the user experience can be shaped and finding ways to do that. Customer obsessed, pixel-perfect and deadline oriented, results in projects with long-term value.

My passions for efficiency are reflected in my daily life and I love working with multidisciplinary and smart teams. I shine in a quick-turnaround environment, writing quick loading, efficient code, and thrilled by the challenge of pushing the limits of front-end development, delivering disruptive, and innovative solutions to the world that will fascinate my customers.

Besides being a front-end developer, I am also the ultimate power web user, who is always up-to-date with the latest trends and discoveries in web development technology.
